RYTHMES & SONS REMOVABLE POLYBLOCK® ON 4TH HOOK

4th Polyblock®

Claude Walter, founder of Rythmes & Sons invented the Polyblocks®, more than 15 years ago.

These temple and woodblocks created in synthetic materials are unbreakable and withstand all the mechanical constraints, and solve all the fragility problems of the traditional wood instruments.

Polyblocks® offer a strength and outstanding stability of sound : from pianissimo to triple forte, solidness of their material permits an exceptional sound dynamic, guaranteed over time.
