Brand	RYTHMES & SONS (flight-cases)
Overall dimensions with wheels (mm)	1200 x 600 x H650
Interior dimensions (mm)	1170 x 570 x H485
Volume (liter)	323
Max. load	Max. 300 kg
Material	9 mm birch plywood
Finishing	Heavy-duty Hexagonal Pattern
Color	Grey
Type of Opening	Hinged top lid
Lid stays	2
Type of Latches	Large recessed padlocking butterfly latch with guided opening/closing mechanism
Number of Latche(s)	2
Type of Handle	Steel Recessed flip handle(s) with double sprung
Number of Handle(s)	8
Dish for stacking	Yes
Stackable	
Castors	4 swivel castors Ø100 (2 with brake) on plates

1200X600X500 TRANSPORT CASE IN HEXA GREY

Premium Range: An ultra-robust and durable transport case for the secure transportation of your equipment

This **versatile case** 1200x600x500, designed and manufactured in **Alsace** by Rythmes & Sons, is part of the **Premium range**. It has been specially designed for **intensive use**.

Its **hexagonal textured coating** ensures **optimal protection against scratches, impacts, and wear**, guaranteeing **increased durability** and resistance suitable for the most demanding environments. Ideal for the **transport and storage** of fragile and heavy equipment, it combines **robustness and practicality**.

The **recessed butterfly latch** is designed for **heavy-duty use** and allows for **secure opening and closing**, with the option to add a padlock. The **recessed handles** with a double return spring ensure **automatic return to a flat position**, preventing snagging and facilitating handling. The **stacking recesses** on the lid enable **stable and secure stacking**, optimizing **storage space** in trucks, warehouses, or backstage areas. The **Tour Label A5 dish** provides **quick and efficient identification** of the contents, an essential feature for logistics during tours or in environments requiring **precise and fast equipment management**.

The flight case is also equipped with **four D100 wheels**, including **two with brakes**, ensuring **smooth mobility**. They are designed to adapt to different surfaces (concrete, parquet, carpet, or uneven floors). These **non-marking wheels** allow for **effortless movement**, even with heavy loads. The **silent rolling feature** enhances user comfort, especially in noise-sensitive environments such as orchestras or recording studios.

As an option, **foam padding** or **removable dividers** can be added for **customized organization** of transported equipment.

This **high-end case** is the ideal solution for professionals looking to combine **security, durability, and ease of transport**.

Developed and manufactured by Rythmes & Sons in France
