### RYTHMES & SONS AMY® ADJUSTABLE CHAIR FOR PERCUSSIONIST / STAGE MANAGER

It is with a similar objective to the Kaija® model that we designed the Amy® chair, with the added advantage of tailor-made adjustment of the seat and back.

It is equipped with an asynchronous mechanism for tilting the seat and backrest to obtain an optimized comfort angle. Ease of adjustment.

Adjustment is made using 2 levers located on one side (right side) to facilitate changes. This system offers daily comfort when using the chair. The controllers are easily located. The user can trigger the mechanisms using only their right hand.

This chair is **guaranteed without squeaks and extraneous noise** thanks to a good quality in the conception and in the making. The manufacturing quality guarantees a 10 years lifetime minimum.
