OPENROAD® 1200X400X400 TRANSPORT CASE

This multifunctional and multi-use transport case is intended for the transport and/or storage of various materials.

You will appreciate the ease of use of this OPENROAD® case locking system, invented in 1996 by Rythmes & Sons.
Very ergonomic, this lock is handled with a slight pressure.
The flat lid is light and takes up little space. When removed, it hangs from the side of the flight case thanks to its hooking system.

Its dimensions are particularly suited to current transport standards.
