ADAMS MAHA50 ARTIST ALPHA MARIMBA 5 OCTAVES, HONDURAS ROSEWOOD

Adams entrusted KesselsGranger DesignWorks studio with the task of redesigning the aesthetic line of their keyboards. The new Alpha series was born from this collaboration. For this generation of instruments, Adams has also developed a patented tuning system. This process is now applied to all instruments of the brand. The keyboards are perfectly homogeneous, open, with a powerful tone. It allows a chord up to the sixth in the low register.
