### HEAVY CLASSIC 19" RACK 12U DEPTH 550 MM

This 19" rack Heavy Classic 12U is a must-have reference in the professional sector. Designed to ensure secure transport and optimal protection, it accommodates 19" equipment up to 550 mm mm deep (including connectors).

Its robust construction in birch plywood with a black hexagonal coating provides excellent resistance to shocks, scratches, and impacts, making it ideal for intensive use. Equipped with traditional butterfly latches, it ensures a reliable closure and outstanding mechanical durability. The removable front and rear lids allow quick and easy access to the equipment, enabling effortless installation.

The recessed spring-loaded handles automatically return to a flat position, preventing any snagging and facilitating handling. They offer optimal carrying comfort, making it easier to transport, especially for tours and performances requiring frequent movement.

This rack features front and rear 19" steel mounting rails, ensuring a stable and secure fixation of your equipment. M6 cage nuts (included) allow for quick and secure installation of 19" devices.

This 19" rack Heavy Classic 12U is compatible with a wide range of 19" equipment, such as wireless receivers, wireless systems, audio interfaces, network routers, compact amplifiers, and digital effect processors. It is perfectly suited for 19" gear from leading brands such as Sennheiser, Shure, Audio-Technica, AKG, Avalon, Focusrite, and Cisco.

The 19" rack Heavy Classic has been specifically designed to withstand the demands of audio and audiovisual professionals. Combining strength and practicality, it meets the expectations of the most demanding technicians and service providers.
