RYTHMES & SONS ADJUSTABLE CHAIR FOR PERCUSSIONIST - ROUND SEAT

It is equipped with a synchronous mechanism offering a coordinated and simultaneous adjustment of the inclination of the seat and backrest to obtain an optimized angle of comfort.

The adjustment is made using 2 levers located on one and the same side (right side) to facilitate changes. This system offers daily comfort in the use of the chair. The levers are easily located. The user can trigger the mechanisms with just one hand without having to put down his instrument.

The height adjustment is carried out by means of a hydropneumatic cylinder.

The height and inclination adjustable footrest allows the user to find balance as well as a suitable posture when sitting-standing, or even sitting.

Seat

- > round
- > Dimensions: 40 cm / 15.7"
- > Adjustable in height: 56-81 cm / 22"-31.8" by a compression gas spring (other height on request)
- > Adjustable in tilt: -4°/+9°
- > Rotates 360°
- > high resilience polyurethane foam, thickness 55 mm / 2.16"
- > Fabric: black xtreme cs fabric, flammability : en 1021 - 1&2 (cigarette & match) ; bs 7176 low hazard ; din 4102 b1 ; nf d 60-013 : önorm b 3825 & a 3800-1 (58 kg/m³ cmhr foam) ; uni 9175 classe 1 im ; nf p 92-507 m1 ; uni 8456, uni 9174 & uni 9177 classe uno, oeko-tek® standard 100 certified, indoor advantage™ gold certified, non-metallic dyes, abrasion resistance: >60,000 martindale rpm

The round seat is designed to ensure comfort and well-being during work sessions requiring long periods of sitting (8 hours and more). The height of the seat allows the musician to keep both feet flat on the ground. The round edges at the front of the seat was made to avoid numbness in the legs by reducing the compression points.

Backrest

- Compact and curved
- Dimensions: 40x22 cm / 15.7"x8.7"
- Adjustable in height: 31-38 cm / 12.2"-15"
- Adjustable in depth: Yes
- Adjustable in tilt: Oui
- high resilience polyurethane foam, thickness 30mm / 1.18", density 37kg/m3
- Fabric: black xtreme cs fabric, flammability : en 1021 - 1&2 (cigarette & match) ; bs 7176 low hazard ; din 4102 b1 ; nf d 60-013 : önorm b 3825 & a 3800-1 (58 kg/m3 cmhr foam) ; uni 9175 classe 1 im ; nf p 92-507 m1 ; uni 8456, uni 9174 & uni 9177 classe uno, oeko-tek® standard 100 certified, indoor advantage™ gold certified, non-metallic dyes, abrasion resistance: >60,000 martindale rpm

The back of the chair is large and curved. It offers a extremely good back and lombar support. The shoulders stay cleared to allow a great freedom of movement.

It allows you to find the most comfortable and favorable posture with a view to promoting tone and efficiency at work.

The back and the seat of the chair are composed of a high resilience foam that increases the comfort. This foam has a good ability take back its initial form after being compressed. It is very resistant through time.

The foams are coated with a fire retardant fabric, that answers the strictest european flammability standards. It has a very good resistance to friction (wet 4/ dry 4) and is extremely resistant to abrasion (certified >60,000 Martindale cycles). It can be vacuumed and washed with a wet cloth, so it is very easy to maintain.

A black grainy epoxy paint covers the steel structure of the chair. It creates a good look and guarantees a superior resistance to impacts and scratches.

Frame

- A black epoxy paint
- Footrest swivel and adjustable in height from 17 to 48 cm
- Steel base 5 branches Ø61 cm
- Non-slip and noise-canceling rubber feet

A black epoxy paint covers the steel structure of the chair. It offers a beautiful appearance while guaranteeing superior resistance to impacts and scratches. The stability of the chair is guaranteed thanks to its steel base 5 branches Ø61 cm. The properties of steel guarantee foolproof robustness. The base is equipped with non-slip, noise-canceling rubber feet.

This chair is guaranteed without squeaks and extraneous noise thanks to a good quality in the conception and in the making.

The manufacturing quality guarantees a 10 years lifetime minimum.
