SLIDTUNE®, AN ELECTRONIC GAUGE FOR TIMPANIST

The Slidtune® is an electronic gauge made in France by Rythmes & Sons.
True timpanist / timpani interface, it will allow you to view the tuning gauges of your 5 timpanies on a single screen.
It will limit reading errors and focus your field of view on the score and the conductor
Slidtune® will bring you an unprecedented mastery of your timpanies.

Characteristics :

- > Touch adjustment
- > Illuminated display
- > Position measurement sensors installed on the pedals
- > XLR cable connections
- > Screen mounted on a stand
- > Designed for LUDWIG & ADAMS timpani (Compatible with all other brands and models of pedal timpanies)
