

Flight cases / Cases, Trunks & Suitcases / Cases & trunks for transport and storage

800x400xH400 OPENROAD® Stackable & Palletizable industrial trunk

Rythmes & Sons

CARACTÉRISTIQUES TECHNIQUES

Référence produit	ORP 0844
Poids net (kg)	13.90
Brand	OPENROAD®
Overall dimensions with wheels (mm)	800x400xH550
Interior dimensions (mm)	770 x 370 x H370
Volume (liter)	105
Max. load	Max. 100 kg
Material	9 mm birch plywood
Finishing	Phenolic coated
Color	Brown
Type of Opening	OpenRoad® top removable flat lid
Lid stays	No
Type of Latches	Recessed sliding latches

OPENROAD® 800X400X400 INDUSTRIAL TRUNK

Stackable and palletizable container optimized for logistics and handling

The industrial trunk OPENROAD® 800x400x400 is a **storage and transport solution** designed to meet the demands of industrial environments. **Robust and functional**, it is optimized for logistics and ensures easy handling and space-saving in your warehouses.

This trunk is perfectly suited to the needs of industries such as **automotive, logistics, aerospace, and medical sectors**, where equipment protection and space optimization are key priorities. Whether for transporting fragile components or storing spare parts, this industrial trunk is an efficient and sustainable alternative to disposable packaging.

Thanks to its **dimensions adapted to EURO pallets**, this industrial trunk seamlessly integrates into logistics circuits, making transport and storage easier. It can be stacked with or without castors, reducing floor space usage in warehouses and maximizing storage efficiency.

Manufactured from birch plywood with a brown phenolic coating, this trunk offers **excellent resistance to heavy loads** and transportation constraints. Its smooth coating makes cleaning easy. The closure system, invented by Rythmes & Sons in 1996, stands out for its ergonomic design and simplicity. Opening and closing are performed effortlessly with a simple press on the sliding latch.

The **recessed, ergonomic handles** with a double return spring ensure an easy grip and automatically return to a flat position. This **system enhances user comfort** and prevents accidental snagging during handling.

To meet the specific needs of each user, optional features can be added:

Number of Latche(s)	2	> Castors to facilitate movement and handling.
Type of Handle	Steel Recessed flip handle(s) with double sprung	> A lock to enhance the security of transported equipment and prevent any unauthorized access.
Number of Handle(s)	2	Developed and manufactured by Rythmes & Sons in France
Dish for stacking	No	
Stackable	Yes, 4 Stacking Plastic Feet	
Castors	In option - M8 inserts for castors Ø100
