OPENTOP® TRAY RACK 1200X600X1550

This new generation of transport rack comes knocking over all handling, loading and unloading habits. Our experience in the field of industrial logistics and the evolution of labor regulations has led us to design new mobility solutions. The OpenTop® rack is ideal for transporting all types of packaged materials, bare materials or spare parts.

Its versatility is an asset for productivity:

- reduction of the quantity of cases,
- reduction of volumes / transport costs.

Its system of flat, folding and sliding lids eliminates the risk of loss or damage.

Their handling is facilitated by weight compensation springs.

The interior features is customizable. Shelves and removable trays are adjustable in height every 50mm.

This rack consists of elements assembled by screwing to disassemble and replace damaged parts easily. Its almost unlimited lifetime significantly reduces its environmental impact and increases its profitability.

Product specifications and fittings
