Rythmes & Sons

NoteLight®

Professional LED Music Stand Light

NoteLight®

Notelight® lightings are integrated in a stylish black composite body and benefit of a bright high quality light.
The lights are hold on an adjustable goosenechk and can be fixed on a music stand by a screw clamp.
Lightweight and easy to use, these dimmable lightings are fitted with a directed beam that illuminates perfectly the score.
The lights match with a wide range of power supplies we developped to cover a wide scope.
Notelight® are designed and manufactured in France by Rythmes & Sons.

Notelight® come in 2 colors temperatures.

Ref : ECL 024G 2640 (4000°K)

Dimmable transformer for 1 light

This transformer is connected to a R&S light with a connector 3 pins.
It plugs into the mains socket or a dimmer.

Specifications

In 240V/AC, EURO-style plug (other plug on request)

Out 24V/DC,
Max 8W

Ref : ECL TRG 24 008

Dimmable transformer for 1 light

Specifications

🔌 In 110-240V, EURO-STYLE plug (other plugs on request)

⦂ Out 24V
Max 8W

Ref : ECL TRF24 008

Rechargeable battery

This non-dimmable self-contained unit is designed for fast installation on outdoor without electrical source.

Specifications

⊙ Out 24V (câble adaptateur pour éclarage inclus)

- Li-ion 24V
- Autonomy > 8H
- Charge indicator

Ref : ECL BAT24V 44

ATTENTION !
La tension de sortie
doit être sur 24V

Options

Battery charger for 5 batteries. Ref : ECL CHA24V X5

Extension lead for 10 or 20 lights

This cable is designed to powered the lights in a daisy chain in order to limit the number of connector and facilitate the installation.
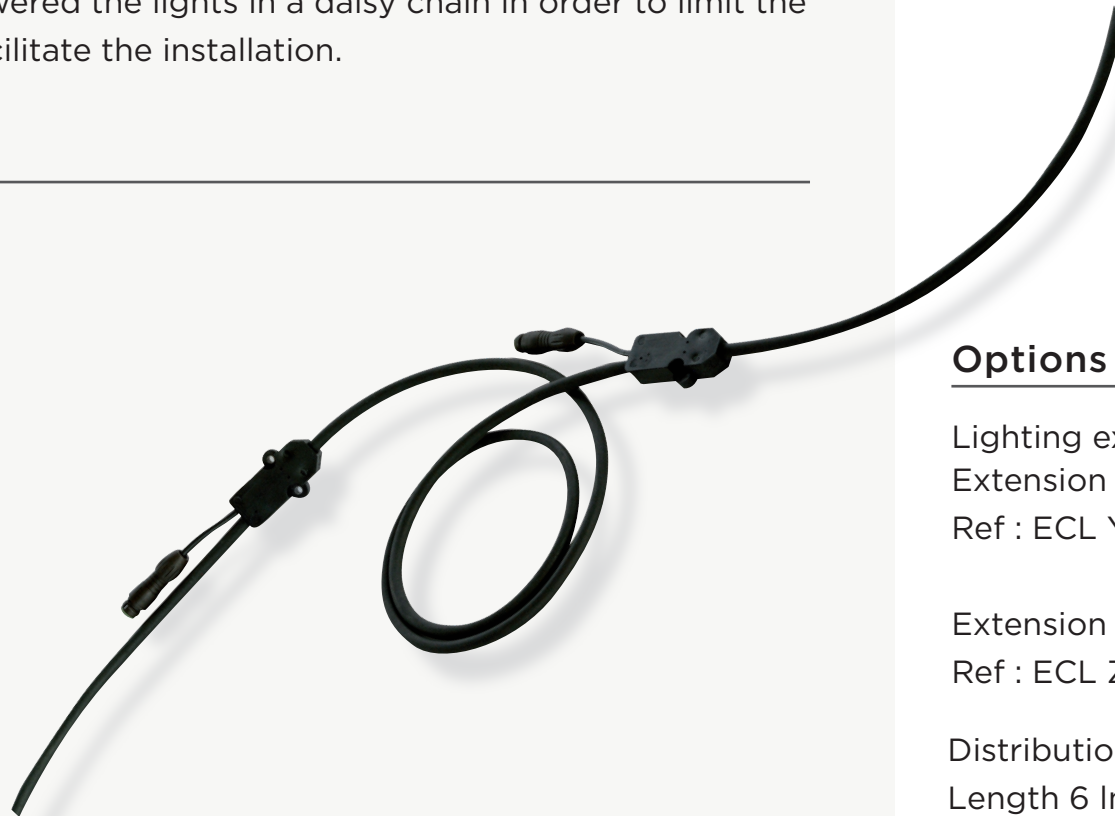

Specifications

In 24V

10x ou 20x / Out 24V

- 120 cm / 47" between each connectors
- Cable H07 RNF 2G1,5

For 10 lights:

for 10 or 20 lights

240V Power supply

Sortie 1   Sortie 2

DMX bloc transformer
+ dimmer for 40 Notelight® lights

110-240V Power supply

2P

Nondimmable transformer
for 20 lights max.

NoteLight®
White Tunable

Notelight® White Tunable is a professional LED music stand light, dimmable in intensity and temperature, developed for orchestras and opera houses.

It provides immediate visual comfort to musicians thanks to the high quality of the light beam.
The variation of temperature and intensity makes it possible to perfectly adapt the lighting to the desired atmospheres.
It can be controlled in DMX from an organ game thanks to a block that can supply up to 40 lights.

We have designed a complete range of distribution cables as well as extension cables offering you great versatility in the stage layout of lighting.
